MEMORANDUM FOR THE RECORD

SUBJECT: Trip Report (RD-112, Task II, Destructor Unit, [redacted])

1. On 13 November 1957 I travelled to [redacted] to discuss loading problems for the film holder used in one of the [redacted] items.) The following persons were present:

[redacted]

The film holder presents an unusual problem in that the explosive charge will be rotating while the initiator will be motionless. Details were discussed fully and after a prolonged conference it was decided that:

- (1) The explosive charge would be removable from the spool
- (2) The explosive charge would consist of [redacted]
- (3) [redacted] will modify the spool to permit removing the charge
- (4) [redacted] will test the initiating assembly.
- (5) [redacted] will make 100 stick charges.

Further discussion was held concerning the destructor switch and detonating cord connectors. It was decided that:

- (1) [redacted]
- (2) [redacted] will produce 200 each of the above
- (3) [redacted] will check reliability of the destructor switch to initiate detonating cord by firing 20 mock up assemblies.
- (4) [redacted] will submit a proposal for the above work as soon as possible.
